

Benjamin Logan Middle School Receives State Recognition

The Ohio Department of Education and the State School Board just released various awards based on last year's State testing data. Benjamin Logan Middle School was awarded the Momentum Award for their efforts in educational growth. The Momentum Award is given to those schools that exceed expectations in student growth for the year. On the state building report card, the school must earn straight A's on all Value- Added measures in order to earn the award.

Benjamin Logan Middle School's teachers, support staff, parents and students have proven that hard work is paying off. Many factors played a part in the Middle School receiving this award. A combination of the teachers at Benjamin Logan Middle School spending countless hours working to grow each and every student, students working hard every single day, and parent support in all areas of the school experience led to the high level of education growth for students. Benjamin Logan Middle School is excited about receiving the Momentum Award and can't wait to see the continued success in the future.
